Set your contribution

Contributions are one way to help your savings work hard for you. To learn more, visit principal.com/MatchEnrollmentWebinar.

Check out the plan's investments

Each investment is different, and you can choose based on your goals and how you feel about risk. You can also pick from the plan's investment options later. But by picking it later, you understand that until you make a new investment selection, you're directing contributions to the plan's default.*

For a full listing, refer to the **Investment Option Summary**.

*The plan's participant level default is: MFS Lifetime R6. See Investment Option Summary for important information. If the default is a target date fund series, the applicable target date fund will be based on the plan's normal retirement date.

Investing involves risk, including possible loss of principal.

Asset allocation and diversification does not ensure a profit or protect against a loss. **Equity** investment options involve greater risk, including heightened volatility, than fixed-income investment options. **Fixed-income** investments are subject to interest rate risk; as interest rates rise their value will decline. **International and global investing** involves greater risks such as currency fluctuations, political/social instability and differing accounting standards. These risks are magnified in **emerging markets**.

See your retirement savings in one place

We'll help you roll eligible outside retirement savings into your retirement account.

Designate a beneficiary

Don't leave the decision up to someone else if something happens to you before retirement. Always designate a beneficiary to ensure the money in your account goes to a loved one.

Keep in touch

Staying in the know when it comes to retirement planning is a pretty good idea. We'll send you educational information about what's important to you.

Know your options:

What to do with your retirement savings¹

It's important to understand the options for the savings you have in your former employer's retirement plan. If you are eligible to take your money out (this is known as a distribution), there are typically four possible options.

There are advantages and drawbacks for each option. You should consider the differences in investment options, fees and expenses, tax implications, services and penalty-free withdrawals.

This summary can help you identify some important considerations.² There may be other factors to consider due to your specific needs and situation. You may wish to consult with your tax or legal advisor.

Retirement savings options

- 1 Roll savings into an Individual Retirement Account (IRA)
- 2 Keep savings in your former employer's retirement plan (if allowed)
- 3 Roll savings to your new employer's retirement plan
- 4 Cash out savings and close the account

(May use a combination of these options)

Retirement savings options

1 Roll savings into an IRA

Advantages

- Maintains tax-deferred status of savings
- Continue to make contributions and save for retirement
- Combine other qualified plans or IRA savings into one account
- Offers greater control as it's your account and you make the decisions
- Offers broad range of investment options to fit needs as they change over time
- Protected from bankruptcy
- May have the services of a financial professional to help with investing and retirement planning
- Flexibility when setting up periodic or unscheduled withdrawals
- May help with planning and managing required minimum distributions at age 72

Drawbacks

- Investment expenses and account fees may be higher than those of employer plans
- No fiduciary required to prudently monitor the cost and quality of the investment options
- IRS penalty-free withdrawals generally not allowed until age 59½
- Loans not allowed. Can only access money by taking a taxable distribution
- Limited protection from creditors
- In-kind transfers of company stock to an IRA will result in appreciated value being taxed as ordinary income at withdrawal from the IRA

It's important to know the types and range of investments and fees of an IRA.

Continued on next page

2 Keep savings in your former employer's plan (if allowed)

Advantages

- Maintains tax-deferred status of savings
- Keeps current investment choices
- Preserves any guaranteed interest rate
- Keeps ownership of company stock in the account where it may have certain tax benefits at withdrawal
- Fees in employer plan may be lower than similar individual accounts
- Plan fiduciary required to prudently monitor the cost and quality of the investments options
- IRS penalty-free withdrawals if you're at least 55 years old in the year you left your job
- Protected from creditors and bankruptcy
- Plan may provide access to planning tools, educational resources and phone helpline

Drawbacks

- Changes made to the plan by your former employer will impact you (i.e., plan investments, fees, services, plan providers, plan termination)
- Investment choices limited to those offered through your former employer's retirement plan
- Subjects you to limitations of the plan, including income distribution provisions when you retire
- Account may be assessed fees for plan administration or other reasons
- Access to personalized investment advice or advice that takes into account your other assets or particular needs may not be available through the retirement plan
- No new contributions allowed

Check your former employer's summary plan description to confirm plan details and requirements.

3 Roll savings to your new employer's plan

This is an option if you are joining a company that offers a retirement plan.

Advantages

- Maintains tax-deferred status of savings
- Continue to make contributions and save for retirement
- Combine other qualified plans or IRA savings into one account
- Fees in employer plan may be lower than similar individual accounts
- Plan fiduciary required to prudently monitor the cost and quality of the investments options
- IRS penalty-free withdrawals if you're at least 55 years old in the year you leave your new job*
- Protected from creditors and bankruptcy
- Plan may provide access to planning tools, educational resources and phone helpline
- Loan provisions may allow borrowing from the rolled over money
- No required minimum distribution at age 72 from a current employer's plan is required, unless you are a 5% or more owner of the company

Drawbacks

- Changes made to the plan by your employer will impact you (i.e., plan investments, fees, services, plan providers, plan termination)
- Investment choices limited to those the plan offers
- Subjects you to limitations of the plan, including income distribution provisions when you retire
- Account may be assessed fees for plan administration or other reasons
- Access to personalized investment advice or advice that takes into account your other assets or particular needs may not be available through the retirement plan
- Plan may offer fewer or more expensive investment options than your former employer's plan
- May be more restrictive on withdrawals while employed
- Roll-ins may not be allowed or an eligibility period may need to be satisfied
- In-kind transfers of company stock will result in appreciated value being taxed as ordinary income at withdrawal from the retirement plan

Check your new employer's summary plan description to confirm plan details and requirements.

4 Cash out savings and close the account

Advantages

- Immediate access to cash
- May see significant tax advantage for company stock that has substantially appreciated
- If after-tax contributions were made, could take these amounts tax-free (though you will be required to pay tax on the earnings of these contributions)

Drawbacks

- At distribution, 20% withheld on the taxable account balance for pre-payment of federal income taxes
- State taxes and a 10% early distribution penalty may also apply on taxable account balance
- May move you to a higher tax bracket
- Forfeits future tax-deferred growth potential
- Not protected from creditors or bankruptcy

If this money is no longer set aside for retirement, will you have the savings you need when you want to retire or can no longer work?

Investment and Insurance products are:

- **Not Insured by the FDIC or Any Federal Government Agency**
- **Not a Deposit or Other Obligation of, or Guaranteed by any Credit Union or Bank**
- **Subject to Investment Risks, Including Possible Loss of the Principal Amount Invested**

* In-service withdrawals may be allowed while you are still working for the company sponsoring the retirement plan. Check with the plan administrator for details and requirements.

¹ These considerations were prepared for pre-tax 401(k) accounts. Some – but not all – of these considerations may also apply to other types of plans and/or accounts (e.g., Roth after-tax accounts).  - 2.) Other after-tax contributions** (not Roth)
 - Other after-tax contribution amount (excluding any earnings/losses) \$ _____
 - No. Not sure?** That's ok. We'll work with you to get this information from the financial institution currently holding the funds.

3. Confirm rollover

By signing this form, I agree that...

This form is designed to be a quick way to direct the investment of eligible rollover funds. If I do not have an investment election on file or wish to make an alternative allocation, I will select investment options by logging in to principal.com or calling 1-800-547-7754.

If I don't make a different investment election prior to my rollover funds being received by Principal®, my funds will be invested based on my current investment election. If I do not have a current investment election on file my funds will directed to the plan's investment default alternative(s): MFS Lifetime R6 based on your current age and the plan's normal retirement date.

I certify that this rollover contains no funds from a hardship withdrawal, no excess contribution amounts, and no funds subject to a required minimum distribution.

I certify that no part of this rollover is part of an inherited IRA, SIMPLE IRA within 2 years of the first contribution, or Roth IRA.

I certify that, if the funds are coming from a former employer's plan, I have verified that the plan is a plan qualified under Internal Revenue Code 401(a) or 403(b) or 457(b).

I understand that Principal will rely on the information I have provided on this form and/or information from the current financial institution regarding the deposit breakdown between pre-tax and after-tax (including any Roth contributions).

You have options other than rolling the retirement account from your former employer's retirement plan to your new employer's plan. Fees, investment options, services and plan features vary between retirement plans.

By rolling over funds to this account, I agree that I have received and reviewed information about the plan's investment options so that I may make an informed investment decision. Information about the plan's investment options is available in the Investment Option Summary included in the enrollment booklet and online at principal.com.

You must roll over qualified funds within 60 days of distribution to avoid tax penalties. If it has been more than 60 days, I agree that I am self-certifying this rollover because I am eligible for a waiver of that period per the guidelines provided by the IRS, and will be submitting a copy of my self-certification to Principal.

*You may roll over a distribution from a traditional IRA to a plan qualified under the Internal Revenue Code §401(a) or 403(b), an annuity, or a Governmental 457(b) plan to the extent that the distribution would be taxable if not rolled over. After-tax contributions in an IRA (including non-deductible contributions to a traditional IRA) may not be rolled over to one of these plans. Amounts rolled into a Governmental 457(b) plan other than another Governmental 457(b) plan are subject to an early withdrawal tax.

You may roll over a Roth account only into a plan that allows Roth contributions. Please check your Summary Plan Description or plan document before rolling over Roth accounts to make sure Roth contributions are available.

4. Plan sponsor authorization

The plan sponsor or trustee has authorized Principal Life Insurance Company to accept rollover contributions per a signed agreement.

5. Request the funds and contribution details

You need to request the funds from the current financial institution holding them. You'll need to provide them some instructions regarding how they provide the funds to us and the breakdown of how they should be directed based on your pre-tax and after-tax contributions (see below). We'll rely on this information and/or the information you've provided on this form when directing the funds here at Principal.

Or we can help you do it. If you'd like some help contacting the current financial institution, call us at 1-800-547-7754 for more information.

Eligible Automatic Contribution Arrangement Participant Notice

You are eligible to participate in the Child & Family Agency of Southeastern Connecticut 403(b) Plan which includes an Eligible Automatic Contribution Arrangement (EACA) for the 2023 plan year. This notice provides you with information to consider before deciding to take no action or to start, continue or change your salary deferral rate.

Eligibility and Entry Requirements

You are immediately eligible to participate in the plan.

Salary Deferral Contribution Plan Provision

You may elect to defer a percentage of your pay each pay period. Your current taxable income is reduced by the amount you contribute through pre-tax salary deferral. This lets you reduce your current federal and most state income taxes. This plan allows you to defer 100% of your pay.

- You may also elect to defer a percentage of your pay each pay period as Roth deferrals, which are after-tax contributions.

Automatic Contribution Arrangement

This retirement plan includes an automatic contribution arrangement that applies to new participants or re-hired participants as they enter the plan. If you are a new participant, you will be automatically enrolled in the retirement plan, meaning 2% of your pay will be deducted from paychecks and contributed to the retirement plan on your behalf unless you elect a different salary deferral percentage. If you are not a new participant, you will maintain your current salary deferral amount unless you elect a different salary deferral percentage.

If you do not wish to be automatically enrolled, you may elect not to defer or to defer another percentage. You can enter into an agreement to change your salary deferral contribution on any date. You will need to complete and sign the salary deferral agreement or complete an election online, if applicable, before the date on which it is effective. Once an agreement (affirmative or automatic) is in effect, salary deferrals will be payroll deducted from your future paychecks. You can terminate your agreement at any time.

If you affirmatively elect to make salary deferral contributions or if you are automatically enrolled and you do not provide direction as to how contributions made on your behalf should be directed, then the contributions will be directed to MFS Lifetime R6, sub advised by MFS Investment Management.

You may obtain additional information regarding investment choices on our secure website at principal.com, or if applicable, see your Qualified Default Investment Alternative notice.

Internal Revenue Service (IRS) regulations or the retirement plan may limit the annual amount of your salary deferral contributions. Please see below for the annual IRS salary deferral limits. If you meet a salary deferral contribution limit, you may continue to defer up to the catch-up contribution limit if you are eligible to defer catch-up contributions.

Salary Deferral Limits

Internal Revenue Service (IRS) regulations or the retirement plan may limit the annual amount of your salary deferral contributions. If you want to contribute more to your account than would be provided automatically, there are limits on the maximum amount. The IRS and plan limits are described in the Plan's Summary Plan Description (SPD) or can be obtained from your employer.

Pay is defined under the plan as follows: Wages, Tips and Other Compensation Box on Form W-2.

Other Employer Contributions

In addition to the above, other employer contributions may be made to the Plan. You should review the Plan's SPD for details regarding these other contributions.

Vesting Plan Provisions

You are always 100% vested in the part of the account resulting from the following:

- Elect Deferral
- Roth Elect Def
- Elec Def CthUp
- Roth Def CthUp
- Qual Nonelect
- Rollover
- Rollover Roth

You may be vested in a percentage of the account from the following contributions:

- ER Match in M
- ER Discretion

The schedule below determines your vesting percentage:

Years of Vesting Service	Vesting Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Withdrawal Plan Provisions

- Severance from employment
- Death
- Disability
- Attainment of age 59½
- Plan termination
- Qualified Reservist withdrawal
- Active Military - Deemed Severance withdrawal
- Rollover

You may elect to withdraw the portion of the account that is a result of salary deferral contributions that were automatically contributed to the plan on or after 5/1/2023 by completing a Permissible Withdrawal Form. The election must be made within 90 days after the pay date of the first automatic salary deferral contribution of an automatic contribution arrangement. Associated matching contributions, if any, will be forfeited. See the "Additional Information" section below for information on who you may contact for the proper form.

NOTE: If you did not have automatic salary deferral contributions for one whole plan year, then the election period may start over from the new, first automatic salary deferral contribution.

Important Participant Notice Regarding Qualified Default Investment Alternative

You have the right to direct the investment of retirement plan contributions among the investment options offered under the retirement plan. Properly investing retirement contributions is important for planning your future retirement income. You should consider your investment direction decision carefully. This notice provides information regarding where contributions submitted to the retirement plan for your benefit will be directed in the absence of your investment election. You may direct the investment of the retirement funds by visiting [principal.com](https://www.principal.com).

Investment Option Default

If you have not provided complete, up-to-date direction as to how the account set up for you under the retirement plan is to be invested, the account will be invested under automatic rules. You need to understand these rules and make sure that you are comfortable with them or that you take action to direct the investment of the account according to your preferences. These rules state that, if we do not have complete investment directions from you, the retirement funds in the account and new contributions for which we do not have direction will be directed to MFS Lifetime R6, sub advised by MFS Investment Management. Your directions must be received at the Corporate Center of Principal Life Insurance Company®.

See the table below to identify the MFS Lifetime R6 that will apply based on your current age and when you will reach the plan's normal retirement date. For information on how you may make an investment direction election, please see the "Right to Direct" section below.

Normal Retirement Date	MFS Lifetime R6
2022 or earlier	MFS Lifetime Income R6 Fund
Between 2023 and end of 2027	MFS Lifetime 2025 R6 Fund
Between 2028 and end of 2032	MFS Lifetime 2030 R6 Fund
Between 2033 and end of 2037	MFS Lifetime 2035 R6 Fund
Between 2038 and end of 2042	MFS Lifetime 2040 R6 Fund
Between 2043 and end of 2047	MFS Lifetime 2045 R6 Fund
Between 2048 and end of 2052	MFS Lifetime 2050 R6 Fund
Between 2053 and end of 2057	MFS Lifetime 2055 R6 Fund
Between 2058 and end of 2062	MFS Lifetime 2060 R6 Fund
2063 or later	MFS Lifetime 2065 R6 Fund

Asset allocation/diversification does not guarantee a profit or protect against a loss.

Note: Neither the principal nor the underlying assets of the MFS Lifetime R6 are guaranteed at any time, including the target date. Investment risk remains at all times.

To learn about the retirement plan's default investment option and related objectives, risk and return characteristics, and associated fees and expenses, please see the following description and attached investment information or Investment Option Summary included in the enrollment workbook for the MFS Lifetime R6 that will apply.

Target Date portfolios are managed toward a particular target date, or the approximate date the investor is expected to start withdrawing money from the portfolio. As each target date portfolio approaches its target date, the investment mix becomes more conservative by increasing exposure to generally more conservative investments and reducing exposure to typically more aggressive investments. Neither the principal nor the underlying assets of target date portfolios are guaranteed at any time, including the target date. Investment risk remains at all times. Neither asset allocation nor diversification can assure a profit or protect against a loss in down markets. Be sure to see the relevant prospectus or offering document for full discussion of a target date investment option including determination of when the portfolio achieves its most conservative allocation.

Please see the attached investment alternative information or Investment Option Summary included in the enrollment workbook or access investment information on our secure website at principal.com to learn about the default investment alternative's investment objectives, risk and return characteristics, and associated fees and expenses.

Right to Direct

If you do not want retirement funds to be directed as indicated above, then you may elect to direct the retirement funds to investment options under the retirement plan by visiting principal.com and logging into the account or by calling 1-800-547-7754.

You may make changes to your investment direction as allowed under the retirement plan. This includes transferring any contributions from the applicable investment option default to another investment option. Transfers out of the investment option default are not subject to restrictions, fees or expenses¹ for a 90-day period, unless the fees and expenses are charged on an ongoing basis for the operation of the investment². See the attached investment information for information regarding restrictions, fees or expenses after the 90-day period.

Additional Information

For additional information about the investment option default or other investment alternatives under the plan please visit principal.com or contact:

¹ Includes surrender charges, liquidation or exchange fees, redemption fees and similar expenses charged in connection with the liquidation of, or transfer from, the investment option default.

² Includes investment management fees, distribution and/or service fees, "12b-1" fees, or legal, accounting, transfer agent and similar administrative expenses.

ERISA 404 retirement plan and investment information

06/01/2023

The retirement savings plan offered by Child & Family Agency of Southeastern Connecticut, Inc is a great way to help you save for the life you want in retirement. Child & Family Agency of Southeastern Connecticut 403(b) Plan (the Plan) has fees associated with the services and resources provided by the Plan.

Plan Fiduciary

The Plan Fiduciary is the individual(s) who has authority over the operation and administration of the Plan and its retirement funds. The Plan Fiduciary is typically your employer, and may also be called the Plan Sponsor.

Plan Administrator

The Plan Administrator, who is also a Plan Fiduciary, has the authority over the operation and administration of the Plan. If you have questions about the investment options available under the Plan or would like paper copies of additional investment information, you can obtain this information on [principal.com](https://www.principal.com) or by contacting the Plan Administrator:

**CHILD & FAMILY AGENCY OF SOUTHEASTERN CONNECTICUT, INC.
PO BOX 120
7 VAUXHALL STREET
NEW LONDON, CT 06320**

Information about ERISA Section 404(c)

The Employee Retirement Income Security Act (ERISA) provides rules on the investment of retirement funds. Child & Family Agency of Southeastern Connecticut, Inc has chosen to qualify the Plan as an ERISA 404(c) plan and intends to comply by providing information for you to make educated investment decisions and by letting you:

- Direct the investment of individual retirement accounts
- Choose from at least three diverse investment options
- Change investment choices at least quarterly

This means the Plan Fiduciary should not be liable for any investment losses that result from a participant's investment control, including a participant's election to use Target My Retirement®.

Your future, your choice

The Plan Fiduciary makes certain investment options available to you under the Plan. But you are responsible for directing the retirement funds to the options available in the Plan that work best for you. You can make changes to your investment mix by logging into your account at [principal.com](https://www.principal.com). Learn more about the investment options available under the Plan online and in the Investment Option Summary.

Directing or transferring between investment options

Certain investment options may have restrictions. See the Investment Option Summary for details.

You can direct or transfer retirement funds between the different investment options at least quarterly, but the Plan may allow for more frequent transfers and changes. To update investment elections for your current balance or future contributions, log in to your account at principal.com or call us at 800.547.7754.

Voting rights

A description of the exercise of voting, tender and similar rights for an investment alternative and any restrictions on these rights can be found in the relevant Plan document or trustee powers section of the trust agreement. If you would like copies of these documents, contact the Plan Administrator, if applicable.

Fees and expenses⁺

For the current year, an annual Plan administrative expense of 0.90% applies to your account balance. One-twelfth of the total amount will be deducted from your account balance each month.

Plan administrative expenses typically cover items such as recordkeeping, participant website access, participant statements, Plan compliance services and financial professional services.

Occasionally, there may be additional Plan expenses during normal Plan operation for services such as legal, auditing, other service provider, consulting or investment advice. The Plan Fiduciary determines how these expenses are allocated at the time the expenses are paid. These expenses are typically allocated among participants based on participant account balance, but may be allocated by dividing the total expenses to be deducted by the total number of participants in the Plan. You can view the dollar amount of applicable expenses under your account at principal.com and on your statement.

Participant-level fees

Participant transaction fees will be charged to your account balance for the services you choose to use. Participant transaction fees for the Plan include:

- **Distribution fee:** \$50.00
- **Loan maintenance fee:** \$12.00 per quarter
- **Loan setup fee:** \$75.00
- **Qualified Domestic Relations Order processing fee:** \$350.00 for each Domestic Relations Order processed. Target My Retirement[®]

You may elect to enroll in Target My Retirement. With Target My Retirement, Morningstar Investment Management LLC manages the investment mix of your account by tailoring an ongoing investment strategy for your unique circumstances. This service is right there with you as you prepare for retirement by monitoring, rebalancing and adjusting your investment strategy as you move through different stages of life.

The below "Information about Target My Retirement" describes the Target My Retirement service in more detail, including the investment objective, risk and return characteristics, and fees and expenses.

Target My Retirement is a managed account service and is subject to the same risks as the underlying asset class. **The principal value of the account is not guaranteed. Investment return and principal value will fluctuate with market conditions, and participants may lose money.** Please carefully review the disclosure document before investing. This may be accessed [here](#) or by requesting a copy from the Compliance department at Morningstar Investment Management at 312-696-6000.

Information about Target My Retirement

Description: The Target My Retirement service is a managed account program that provides you with a personalized investment strategy. Morningstar Investment Management LLC, a registered investment adviser and subsidiary of Morningstar, Inc., will act as the fiduciary within the program and will invest and manage your retirement account based on your personal information, including age, gender, years to retirement, current salary, current savings rate and account balance, and other personal and financial information that you provide to Morningstar Investment Management. The investment strategy is regularly monitored and rebalanced as you approach retirement, as your financial needs change, and as you update information about you through the Morningstar Investment Management website. While in the service, you will be unable to make transfers among the plan's eligible investment options (as defined in the Participant Agreement) and direct how new contributions are allocated. You may stop participation in the service at any time by calling 800.547.7754 or by logging into your account at principal.com.

Investment Objective: The Target My Retirement service seeks to achieve varying degrees of capital appreciation and capital preservation through a mix of equity and fixed income investments consistent with your circumstances.

Risks and Return: The program, and each allocation within the program, may be subject to equity market, foreign equity market, real estate market, foreign bond market, and domestic bond market risks, any of which could cause an investor to lose money. While the allocation for each individual may vary, the investments made for participants who are further from their anticipated retirement may involve greater risks than investments made for participants who are closer to retirement, due to the fact that investments made for participants who are further from retirement typically include a greater allocation to equity securities. Participants whose account assets are invested more heavily in equity securities are also subject to greater risk of market fluctuations. The actual allocation for each individual depends on several demographic and account factors. The factors include age, anticipated retirement age, the participant's current account balance, the participant's eligible income, the participant's current savings rate, gender (for life expectancy) and any additional assets held outside the Plan that the participant expects to use for retirement income purposes and that the participant has provided to Morningstar Investment Management.

Fees and Expenses: The fees and expenses associated with Target My Retirement consist of an asset-based program fee of .5% of Eligible Investment Options* per year. The program fees are accrued daily and charged to your retirement accounts managed under the Target My Retirement service on a monthly basis. These fees are in addition to investment advisory and other fees charged by mutual funds and other investment options in which participant account balances are invested. **Note:** This fee is waived through 07/29/2023.

* Investment options generally not eligible for inclusion in the service include but are not limited to company stock or other stock investments, self-directed brokerage account investments, and guaranteed interest accounts. You have responsibility for managing these retirement funds. Therefore, the fee will not apply to investment options that are not eligible for the service.

+ If you have a balance in an investment that is excluded from the collection of expenses, we will collect the expense from the balances in other investments, beginning with the investment with the largest balance.

The following information is available upon request from the Plan Administrator (at no charge):

- Copies of prospectuses (or any short-form or summary prospectuses) for the investment options
- Copies of any financial statements or reports, such as statements of additional information and shareholder reports, and of any other similar materials relating to the Plan's designated investment options
- A statement of the value of a share or unit of each designated investment option and the date of the valuation
- A list of the assets comprising the portfolio of each investment option which constitute Plan assets and the value of each asset (or the proportion of the investment which it comprises)
- The following information about each investment option (including fixed-return investment options) available under the Plan: issuer name, investment objective, principal strategies and risks, turnover rate, performance, and fee and expense information

- To the extent a group annuity contract under the Plan permits you to select an annuity guaranteed by an insurance company, a statement that the guarantee provided by the insurance company is subject to its long-term financial strength and claims-paying ability

.....

To help you make informed investment choices and for more information about the investment options available to you, including investment objectives, performance and fees, please review the enclosed materials or visit principal.com.

With the transition of the Plan services to Principal, the participant transaction fees may be different than those charged by the previous service provider. The new fees have been approved by the Plan Fiduciary.

Investment Option Summary

As of 12/31/2022

This document provides important information to help you compare the investment options available to you under the retirement plan.

Investment results shown represent historical performance and do not guarantee future results. Investment returns and principal values fluctuate with changes in interest rates and other market conditions so the value, when redeemed, may be worth more or less than original costs. Current performance may be lower or higher than the performance data shown. For additional information on the investment options, including most recent month-end performance, log in to the Principal Financial Group® website at principal.com or call our automated phone system at 1-800-547-7754.

Additional information available online includes, if applicable, the name of the investment option's issuer; the investment option's objectives or goals; the investment option's principal strategies, including a general description of the types of assets held by the investment option; the portfolio turnover rate; and the investment option's performance data and fee and expense information.

In situations where the net and gross total investment expense figures are different, the mutual fund or the underlying fund in which a Separate Account invests has waived/capped a portion of its management fees through the date displayed in the waiver expiration date or contractual cap expiration date column. Differences may also be shown due to the fund family choosing to pay certain expenses that would normally be payable by the fund. Returns displayed are based on total investment expense net.

Total Investment Expense - Gross is the current maximum expense ratio, as a percentage of assets that can be applied to this investment option. This does not represent the recordkeeping or individual transactional fees that can be deducted from or reduce the earnings for an investment under your account. However, it does include operating expenses, management fees, including 12b-1 fees, and administrative fees.

Total Investment Expense - Net; you will be responsible for this expense and it will be automatically taken prior to calculating performance. Total Investment Expense - Net is the Total Investment Expense - Gross expense ratio less any fee waivers, reimbursements or caps, if applicable. The expenses ratio, as a percentage of net assets, includes operating expenses, management fees, including 12b-1 fees, and administrative fees.

Expense Waiver/Contractual Cap - When gross and net expense ratios differ, the investment adviser may have agreed to waive certain expenses that would normally be payable by the fund or contractually agreed to limit the investment option's expenses.

Fees and expenses are only one of several factors that participants and beneficiaries should consider when making investment decisions. The cumulative effect of fees and expenses can substantially reduce the growth of a participant's or beneficiary's retirement account. Participants and beneficiaries can visit the Employee Benefit Security Administration's website for an example demonstrating the long-term effect of fees and expenses.

Asset Class: Fixed Income

This asset class is generally composed of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non- U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities. All investment options in this category have the potential to lose value.

Asset Class: Short-Term Fixed Income

This asset class is generally composed of short-term, fixed-income investment options that are largely liquid and are designed to not lose much value. These investment options may include stable value, money market, short-term bond, and guaranteed interest accounts. They are considered to be among the least risky forms of investment options. However, they typically have a lower rate of return than equities or longer-term fixed income investment options over long periods of time. Depending on the objectives of the investment options, they may experience price fluctuations and may lose value.

Investment Option Name: **Principal Fixed Income Guaranteed Option**^{4,9,16,17,18}

Description:

This group annuity contract provides an interest rate guaranteed for a set period of time by the Principal Life Insurance Company® (Principal Life). It is backed by the multi-billion-dollar general account of Principal Life, which invests in corporate bonds, asset-backed securities, commercial real-estate mortgages, government bonds, and short-term cash equivalents. However, money allocated to Principal® Fixed Income Guaranteed Option (PFIGO) does not entitle you to participate in the investment experience or performance of the general account. The composite crediting rate (crediting rate) applied to accounts is a weighted average of underlying guarantees provided in the contract. Each underlying guarantee has a final maturity date determined when the guarantee is established. That date can range between 2 and 10 years from the date the guarantee is established. The Term column below provides the targeted average maturity of the underlying guarantees. The crediting rate resets every 6 months based on the changing weighted average of the underlying guarantees and is announced in advance for the upcoming period. The crediting rate is an effective annual rate and is displayed below net of the Rate Level Service Fee. The crediting rate, before fees, is subject to a minimum guaranteed rate defined in the contract. When the crediting rate is reset, the minimum guaranteed rate is also recalculated in accordance with state insurance regulations which utilize U.S. Treasury rates. The formula is further outlined in the group annuity contract. The minimum guaranteed rate will range between 0.15% and 3%, depending on market conditions. Benefit payments to participants for plan benefit events, including retirement, termination of employment, disability, plan termination, death, loans, and withdrawals, as allowed by the plan, are made without any surrender charge. There are no restrictions or surrender charges on investment transfers initiated by a participant from PFIGO to non-competing investment options. If the retirement program provides access to PFIGO and Competing Investment Options, investment transfers directly to Competing Investment Options are not allowed. Competing Investment Options include other guaranteed investment options, or a stable value, money market, or other short term fixed income investment option with an average duration of less than two years. Indirect transfers from PFIGO to a Competing Investment Option will be subject to an Equity Wash. An Equity Wash requires that transfers be directed to a non-competing investment option for 90 days before a subsequent transfer can be made to Competing Investment Options. Termination of the Plan's Interest, Plan Sponsor's Interest (in the case of a nonqualified deferred compensation plan), or Participating Employer's Interest in the contract ("Party's Interest") is subject to either 12 months' advance notice (subject to additional contractual limitations) or a 5% surrender charge calculated using the 12-month average value of the Party's Interest in the contract, whichever the authorized plan representative chooses. PFIGO may make available higher crediting rates. If these are available and your authorized plan representative chooses to move a Plan's Interest or Plan Sponsor's Interest to a higher crediting rate, a charge of 1.50% of the Plan's Interest or Plan Sponsor's Interest applies. If there are multiple higher crediting rates available, the 1.50% charge applies to each higher crediting rate that your authorized plan representative elects. If the charge is directed by the authorized plan representative to be deducted, the actual charge applied to your account may be higher or lower than 1.50% depending on the plan's interest at the time the authorized plan representative chose to move to a higher crediting rate and the value of your account at the time of the movement. For more information, call the automated phone system at 1-800-547-7754 or see the applicable fact sheet on principal.com.

Investors should carefully consider a mutual fund's investment objectives, risks, charges, and expenses prior to investing. A prospectus, or summary prospectus if available, containing this and other information can be obtained by contacting a financial professional, visiting principal.com, or calling 1-800-547-7754. Read the prospectus carefully before investing.

The value of the investment options will fluctuate so that when redeemed, shares or units may be worth more or less than the original cost.

An investment's past performance is not necessarily an indication of how the investment will perform in the future.

Since inception benchmark returns are displayed on the Investment Option Summary for investments that are less than 10 years old. The benchmark reflecting the Since Inception return is the Morningstar Category index. For some Sub-Advised investment options, two benchmarks will be displayed on the Investment Option Summary and the secondary index reflecting the Since Inception Return is the Morningstar Category index.

Investment Options may charge a short-term trading or redemption fee to protect the interests of long-term Contractholders.

Returns shown for periods of less than one year are not annualized. All returns displayed here are after net Total Investment Expense of the investment option.

For a Mutual Fund investment option, Total Investment Expense gross equals the sum of (a) the total fund operating expenses plus (b) if the mutual fund invests in other mutual funds, the weighted-average management fee of those other mutual funds, as listed in the most recent prospectus. The actual Total Investment Expense may change if the mutual fund investment option's allocation of assets to other mutual funds changes.

Insurance products and plan administrative services are provided by Principal Life Insurance Company. Principal mutual funds are part of the Principal Funds, Inc. series. Principal Funds, Inc. is distributed by Principal Funds Distributor, Inc. Securities are offered through Principal Securities, Inc., 1-800-547-7754, member SIPC and/or independent broker/dealers. Securities sold by a Principal Securities, Inc. Registered Representative are offered through Principal Securities, Inc. Principal Funds Distributor, Principal Securities, Inc. and Principal Life are members of the Principal Financial Group® (The Principal®), Des Moines, IA 50392.

As allowed by their prospectuses several mutual fund companies have decided to impose redemption fees and/or transfer restrictions on certain plan and/or participant transactions. One or more of the investment options in your employer's retirement plan may be impacted. For more information, visit The Principal Web site at principal.com.

Any operating expenses of a mutual fund or underlying mutual fund that are part of net Total Investment Expense are obtained from the mutual fund's most recent prospectus. The operating expenses shown as part of net Total Investment Expense include voluntary expense limits and fee credit.

These results are for the investment options available through your Plan Sponsor's retirement plan, and may be different from the results for other retirement plans. Past performance is not a guarantee of future results. Principal values and investment returns will fluctuate so that values upon redemption may be worth more or less than original costs. Total returns illustrated are net of investment expenses and management fees.

Since inception returns are only shown for funds/accounts in existence for less than 10 years.

- ¹ Small-cap and mid-cap investment options are subject to more fluctuation in value and may have additional risks than other investment options with stocks of larger, more stable companies.
- ² Each index based investment option is invested in the stocks or bonds of the index it tracks. Performance of indexes reflects the unmanaged results for the market segment the selected stocks or bonds represent. There is no assurance an index based investment option will match the performance of the index tracked.
- ³ International and global investment options are subject to additional risk due to fluctuating exchange rates, foreign accounting and financial policies, and other economic and political environments.
- ⁴ Principal Fixed Income Guaranteed Option is not FDIC insured and is not an obligation or deposit for any bank nor guaranteed by a bank. The guarantees provided with regard to the Principal Fixed Income Guaranteed Option are supported by the general account of Principal Life. Principal Fixed Income Guaranteed Option is the Group Annuity Contract - Custodial Guaranteed Interest Contract available through Principal Life Insurance Company, a member of the Principal Financial Group®, Des Moines, Iowa, 50392.
- ⁵ Equity investment options involve greater risk, including heightened volatility, than fixed-income investment options. Fixed-income investment options are subject to interest rate risk, and their value will decline as interest rates rise.
- ⁶ Asset allocation does not guarantee a profit or protect against a loss. Investing in real estate, small-cap, international, and high-yield investment options involves additional risks.
- ⁷ Fixed-income investment options are subject to interest rate risk, and their value will decline as interest rates rise. Neither the principal of bond investment options nor their yields are guaranteed by the U.S. government.
- ⁹ The Principal Fixed Income Guaranteed Option is a guarantee backed by the general account of Principal Life. As a guaranteed contract, it does not have an investment management fee or expense ratio; those are concepts unique to investment products. The Rate Level Service Fee illustrated here represents a part of an overall fee arrangement that the plan pays for services from Principal Life as a provider of administrative services to the plan, as agreed to in the Service and Expense Agreement for the plan.
- ¹¹ Fixed-income and asset allocation investment options that invest in mortgage securities are subject to increased risk due to real estate exposure.
- ¹² For investment options, returns for all time periods, except the Since Inception time frame, may include the historical performance of the oldest share class of the investment, adjusted to reflect a portion of the fees and expenses of this share class. Since Inception returns display the actual return of this share class and do not reflect the adjusted returns of the oldest share class. Please see the fund's prospectus or if CIT, the offering document for more information on specific expenses, and the investment options most recent shareholder report for actual date of first sale. For a CIT, you may need to contact the plan sponsor or plan advisor, if applicable. Expenses are deducted from income earned by the investment option. As a result, dividends and investment results will differ for each share class.
- ¹³ Selecting a target date fund series is also authorizing any additional vintage which is launched by the investment provider for the series, and included in their associated materials, to be added to the plan after proper notification.
- ¹⁴ There is no guarantee that a target date investment will provide adequate income at or through retirement. A target date fund's (TDF) glidepath is typically set to align with a retirement age of 65, which maybe your plan's normal retirement date (NRD). If your plan's NRD/age is different, the plan may default you to a TDF based on the plans NRD/Age. Participants may choose a TDF that does not match the plan's intended retirement date but instead aligns more to their investment risk. Compare the different TDF's to see how the mix of investments shift based on the TDF glide path.
- ¹⁵ Investing involves risk, including possible loss of principal. Equity investment options involve greater risk, including heightened volatility, than fixed-income investment options.
- ¹⁶ Nonqualified plan sponsors may include Principal Fixed Income Guaranteed Option as an available investment option to reference when measuring a nonqualified participant's benefits, as described in certain nonqualified plan materials. The guarantee of principal and interest through the group annuity contract is not a representation that a nonqualified plan sponsor holds any assets for paying these benefits.

- ¹⁷ An interest in Principal Fixed Income Guaranteed Option may be obtained by a nonqualified plan sponsor to use that interest as a corporate asset to aid in financing liabilities to nonqualified plan participants. Participants in a nonqualified plan do not own an interest in the contract, although a liability owed to a nonqualified participant may be tracked by an interest attributed to such nonqualified participant. All limitations on transfers and withdrawals, including surrender charges and early termination charges, apply to the Plan Sponsor's Interest in the contract with respect to a nonqualified plan.
- ¹⁸ Participating Employer's Interest applies where the retirement plan that has an interest in Principal Fixed Income Guaranteed Option is a Pooled Employer Plan or a Multiple Employer Plan.
- ^E Investment option limits the number of transfers allowed into the investment option. All participant investment transfers and non-scheduled rebalancing activity are counted toward the number of transfers allowed. When the number of allowed transfers into the investment option is met, no additional investment transfers into the investment option will be allowed until the holding period elapses. Contributions into the investment option are not impacted.
- ^F Investment option limits transfer activity. Once the number of allowed transfers is met, participants are not allowed to transfer back into an investment option which they have transferred out of until the holding period elapses. All participant investment transfers and non-scheduled rebalancing activity are counted toward the number of transfers allowed. Contributions into the investment option are not impacted. Participants may still transfer out to different investment options or to money market or Guaranteed options.
- ^G Investment option limits transfer activity. Once the number of allowed transfers is met, participants are not allowed to transfer amounts valued at the threshold amount or more back into the investment option which they have transferred out of until the holding period elapses. All participant investment transfers and non-scheduled rebalancing activity valued at the threshold amount or more are counted toward the number of transfers allowed. Contributions into the investment option are not impacted. Participant transfers made for less than the threshold amount do not count and are not limited.
- ^H Investment option limits transfer activity. Once the number of allowed transfers is met, participants are not allowed to transfer back into an investment option which they have transferred out more than the threshold amount until the holding period elapses. All participant investment transfers and non-scheduled rebalancing activity more than the threshold amount are counted toward the number of transfers allowed. Contributions into the investment option are not impacted. Participants may still transfer out to different investment options, money market, or Guaranteed options.
- Principal Life works with each fund family to implement each funds' policy and establish frequent trading guidelines that best mirror Prospectus language. Mutual Fund Network investment managers have the ability to monitor for excessive trading and may enforce frequent purchase limitations in addition to or in lieu of policy monitored by Principal Life Insurance Company. Years to Retirement

When do you plan to begin taking money out of your account?

- 16 years or more
- 11-15 years
- 6-10 years
- 5 years or less

Where did you land?

Based on your answers to the quiz, let's determine which investor profile best describes you. Your investor profile can help you figure out what mix of investment options may be right for you by showing how money could be allocated into the plan's various types of investments across different levels of risk.

First, find your quiz score. > **Then**, find your years to retirement. > **Next**, determine where these two meet on the chart below.

The color of the box where these intersect will match one of the five investor profiles below.

Profile descriptions

Whether you're taking this quiz to help select your mix of investments or to verify if your own education model aligns, the five pie charts represent a mix of risk levels that apply to investments that fit within each profile description. Based on the quiz results, consider if the investor profile and description match what type of investor you are.

Conservative This allocation is designed for the more cautious investor, one with sensitivity to short-term losses and/or a shorter time horizon. It is targeted toward the investor seeking investment stability from the investable assets but still seeking to beat inflation over the long term. The main objective of this investor is to preserve capital while providing income potential. Investors may expect fluctuations in the values of this portfolio to be smaller and less frequent than in more aggressive portfolios.

Moderate conservative This allocation may be appropriate for the investor who seeks both modest capital appreciation and income potential from his or her portfolio. This investor will have either a moderate time horizon or a slightly higher risk tolerance than the most conservative investors. While this allocation is still designed to preserve capital, fluctuations in the values of this portfolio may occur from year to year.

Moderate This allocation may suit the investor who seeks relatively stable growth with a lower level of income potential. An investor in the moderate risk range will have a higher tolerance for risk and/or a longer time horizon than more conservative investors. The main objective of this investor is to achieve steady growth while limiting fluctuation to less than that of the overall stock markets.

Moderate aggressive This allocation is designed for investors with a relatively high tolerance for risk and a longer time horizon. These investors have little need for current income and seek above-average growth from the investable assets. The main objective of this profile is capital appreciation, and its investors should be able to tolerate moderate fluctuations in their portfolio values.

Aggressive This allocation may be appropriate for investors who have both a high tolerance for risk and a long investment time horizon. The main objective of this profile is to provide high growth, which means the investor is not as concerned with receiving current income. This portfolio may have larger and more frequent fluctuations from year to year, making it potentially less desirable for investors who do not have both a high tolerance for risk and an extended investment horizon.

Morningstar Investment Management LLC, periodically reviews and adjusts profile asset allocation model percentages based upon their economic outlook and current market conditions.

Investing involves risk, including possible loss of principal. Asset allocation and diversification do not ensure a profit or protect against a loss.

Equity investment options involve greater risk, including heightened volatility, than fixed-income investment options.

Fixed-income investments are subject to interest rate risk; as interest rates rise their value will decline.

Lower-rated securities are subject to additional credit and default risks.

Small and mid-cap stocks may have additional risks including greater price volatility.

International and global investing involves greater risks such as currency fluctuations, political/social instability and differing accounting standards.

Target My Retirement is a managed account program that provides participants with a personalized approach to retirement planning and an investment strategy that moves on a glide path toward their retirement.

Principal has retained Morningstar Investment Management LLC as an investment adviser to create and manage the Target My Retirement investment strategies. Morningstar Investment Management uses its proprietary platform, Morningstar® Retirement ManagerSM to provide personalized advice on retirement age, savings rate, and investment strategies with the goal of helping a participant reach their retirement goals.

This service is offered by Morningstar Investment Management LLC, a registered investment adviser and subsidiary of Morningstar, Inc., and is intended for citizens or legal residents of the United States or its territories. The Morningstar name and logo are registered marks of Morningstar, Inc. Investment advice generated by this service is based on information provided and limited to the investment options available in the defined contribution plan. **Projections and other information regarding the likelihood of various retirement income and/or investment outcomes are hypothetical in nature, do not reflect actual results, and are not guarantees of future results. Results may vary with each use and over time. Participants should continue to review investment information at least annually or as significant events occur.** Morningstar Investment Management is not affiliated with Principal.

Target My Retirement has been designed to be able to meet the requirements for a managed account “qualified default investment alternative” under DOL regulations. Note that plan specific requirements also apply. Plan sponsors should consult their legal advisors for more information.

When using the plan's existing core investment option array with the Target My Retirement offering, Principal does not serve in a 3(21) capacity; the plan sponsor or designated fiduciary maintains responsibility for the plan's core investment array.

Principal charges each participant who enrolls in Target My Retirement (TMR) an asset-based management fee based on the participant's assets under management through the TMR investment solution. In addition to the asset-based management fee, assets invested through TMR are also subject to fees and expenses charged by the underlying investment options. Depending on the version of TMR selected by the Principal client, the underlying investment options may include mutual funds, collective investment funds (CITs) and Separate Accounts for which Principal or its affiliates may receive additional compensation.

If a plan participant selects Target My Retirement-Advice, Morningstar Investment Management LLC will make a point-in-time recommendation on investments, savings rate, and retirement age, based on specific information the participant provides, including age, gender, years to retirement, current salary, current savings rate, and account balance. The participant is responsible for logging in to set their mix of investments, rebalancing or any updating of their mix of investments.
